

## About AccountingSuite™

AccountingSuite™ is a powerful, customizable, all-in-one enterprise business application for accounting, cloud banking, order management, inventory management, eCommerce, project, and time tracking in one cloud-driven platform. Our mission is to provide easy to use, no-nonsense software that is scalable for growing companies to manage finances and day-to-day operations.

AccountingSuite™ partners with accountants to deliver the software as low as \$13 per month per client with unlimited accountant and bookkeeper seats.

***This was an exciting project for AccountingSuite™ providing a complete back-end solution for the Franchisor and the Franchisee. Not only do we provide these types of solutions, but also provide customized solutions for all business types.***

## About BooXkeeping

**A Franchise Opportunity For CPAs That Works** – Max Emma, CEO of BooXkeeping has created a unique opportunity for CPAs. The BooXkeeping franchise is an opportunity to own a bookkeeping business that maximizes profitability by creating a network of small-business customers and offering them comprehensive bookkeeping services at an affordable price. Our flexible bookkeeping franchise opportunity for CPAs allows your firm the ability to have clean books across the entire board.

### What was the solution?

We are using AccountingSuite™ for all of our internal billing systems. AccountingSuite™ is now the complete back-end system for franchisors like BooXkeeping and franchisees. It's a two-fold advantage for both franchisors and franchisees. The franchisees can invoice and bill their clients and get paid. Franchisors get a central dashboard to know how much is owed and manage billing.

### What problem did BooXkeeping have?

BooXkeeping needed a customizable back-end solution that could handle the bookkeeping franchisor and the franchisee's as well, streamlining all of the daily back-end processes.

BooXkeepingfranchise.com sells bookkeeping franchises to established CPA Firms, Max Emma, CEO of BooXkeeping is the franchisor as well as providing bookkeeping services. We needed a centralized billing and invoicing solution for the franchisees, serving as the payment system. We also needed help collecting royalties from the franchisees. We needed a complete back-end solution.

### What do you find helpful?

- ▶▶▶ Dashboard to see all franchisees in one place
- ▶▶▶ Centralized billing for the franchisor
- ▶▶▶ Easy to add and remove clients
- ▶▶▶ Dedicated helpline

***I'm thrilled to work with the AccountingSuite™ team; they are very responsive, from the help desk to the CEO of the company.***

***~Max Emma***
